Donald P. Beeman, B.S., has 35 years experience in a variety of commercial roles in the pharmaceutical and vaccine industry. Most recently he led LigoCyte, a small biotech company in Bozeman, Montana, now known as Takeda Vaccines. He founded Topaz Pharmaceuticals, LLC. He began his career with Merck & Co. and progressed through many different assignments in his 25 years at the company. Mr. Beeman led the commercial operations of the billion dollar vaccine division. Topaz was acquired by Sanofi in 2011. From 2006 to 2014 Mr. Beeman led LigoCyte as the CEO. Under his guidance, LigoCyte raised over $60 million from venture capitalists which enabled the development of LigoCyte's Norovirus, Influenza, and RSV vaccines. In October 2012, LigoCyte was acquired by Takeda, a global pharmaceutical company, headquartered in Japan. Mr. Beeman served on the Board of Directors of the Biotechnology Industry Organization (BIO) where he was a member of the Emerging Companies Section Governing Board. He assisted with BIO’s efforts on health care reform and other policy issues. Mr. Beeman has a Bachelor of Science degree in biology from the University of Indianapolis. He is a soccer fan, enjoys skiing, hiking, bicycling, golf, and Indy car racing.

Wendy Samson is the President of FutureSYNC International, a forward-thinking employer resource, and leadership consortia. She is the author of, “Heart Strings for Business,” and “The Mosaic Manager Development.” During her tenure as the President of FutureSYNC International, she has designed and developed leadership effectiveness programs, healthcare service systems/measurements, and employee engagement programs for a wide variety of multisite organizations throughout the country. Wendy has been privileged to work with people committed to excellence in small and large progressive organizations. From “Lean Thinking,” “Accountability Cultures” to “Organizational Customer Focus,” FutureSYNC International is on the cutting-edge. Wendy’s tools and case study testimonies are the product of innovative practices and her “outcome-based” approach to organizational diagnosis, solution implementation and facilitation.

Barbara Braided Hair is an enrolled member of the Northern Cheyenne Tribe. Barbara has been the Branch Manager of the Lame Deer First Interstate Bank since 1999. She currently serves on the board of directors for the People’s Partners for Community Development, which provides financial literacy education to community members and small business development through small loans, Individual Development Accounts and tax preparation assistance. She also is a member of the Community Emergency Response Team Fire Corp, Advisory to the National Indigenous Women’s Resource Center, Inc., a partner to the Boys & Girls Club of the NC Nation, and Northern Cheyenne Housing Authority on Homebuyer Education. Barbara has been involved in a cultural collaborative involving students from the Northern Cheyenne Reservation for the past four years. This partnership has drawn the interest of a group of medical experts/doctors from the Akron, Ohio area to assist in the medical care issues on the Northern Cheyenne Reservation.

Dorothy A. Dupree, B.S., M.B.A., a member of the Assiniboine and Sioux Tribes, is Acting Director of the Billings Area of the Indian Health Service (IHS). The IHS, an agency within the Department of Health and Human Services (HHS), is the principal federal health care advocate and provider of health care services for American Indians and Alaska Natives. In this position, Ms. Dupree provides leadership to the Billings Area and oversees the delivery of health care to more than 65,000 American Indians and Alaska Natives on seven reservations in Montana and one in Wyoming. Ms. Dupree joined the IHS in the late 1980s and later served in a number of leadership roles in the Albuquerque Area, including Executive Officer and Acting Area Director. Ms. Dupree is the recipient of numerous awards from IHS and CMS, including the HHS Secretary’s Award for Distinguished Service, IHS Superior Performance awards, CMS Administrator’s Achievement awards, and CMS Superior Performance awards. Ms. Dupree received her Bachelor of Science in Education degree from the University of North Dakota and her Master’s degree in Business Administration from the University of Arizona.
Speaker Biographies, Continued

Roman Hendrickson, M.D. spent all of his formative years in New York, then attended the University of Minnesota, the University of Aix-Marseille in Aix-en-Provence France, and received his BA from The University of Minnesota. Roman also graduated from the University of South Florida with a BS in Clinical Chemistry. He attended the USF College of Medicine in Tampa, graduating as the president of his class. Roman moved to Daytona Beach to complete a residency in Family Medicine graduating. He practiced Family Medicine and Geriatrics in Ormond Beach, Florida as the senior partner of 6 physicians, until 1997 when he moved with his family to Montana. During his years in practice in Florida he served as the founding CEO of a 500+ physician IPA, the President of The Florida Academy of Family Physicians and later the President of the American Medical Directors Association. Upon moving to Montana, he assumed the position of Chief Medical Officer of The Fort Peck IHS Service Unit supervising 24 medical professionals, until moving to Sheridan, Montana in 2003 where he currently practices. While in Montana he has served as the President of the Montana Gerontology Society, the Montana Academy of Family Physicians and is currently President Elect of the Montana Medical Association. He also currently serves on the board of the Montana Blue Cross and Blue Shield. Roman and his wife Joan, who teaches Yoga, have 11 children and 13 grandchildren.

Kristin Juliar, B.S., M.A. is the Director of the Montana Area Health Education Center (AHEC) and Montana Office of Rural Health (MORH) at Montana State University in Bozeman. She chairs the Montana Healthcare Workforce Advisory Committee, which developed a statewide strategic plan to guide healthcare workforce development in the state. The MORH/AHEC works with Critical Access Hospitals on the Community Health Services Development assessment process and assists hospitals with strategic planning. She served on the MT Patient Centered Medical Home Advisory Committee and serves on the board of HealthShare Montana. During the past three years, she has worked with MMA, WWAMI, MHA, OCHE, and the state’s residency programs to establish the Montana Graduate Medical Education Council. She has served on several healthcare committees and boards in Montana and Minnesota. She has an M.A. in Urban and Regional Studies.

Rebecca Mahurin, Ph.D. is the Director of the Technology Transfer Office at Montana State University. Rebecca works to license MSU technologies to companies and interface with the high-tech community. She has experience in management of high-tech companies and with funding research and development. Her BS and MS are from Western Kentucky University in Agriculture and Biology. She holds a Ph.D. from Montana State University in veterinary science. She received the Economic Leadership Award during the Prospera Business Network’s annual Business Excellence Awards in Bozeman. Since 2003, the Technology Transfer Office has executed approximately 198 licenses or options with Montana companies or entrepreneurs, and in the past 15 years MSU has been involved in spinning out roughly 50 companies.

Michael Mansfield M.S., CTBS is the Product Manager at Bacterin International. His responsibilities include design, development, distribution, and management of allograft tissue and allograft tissue based medical devices intended for transplant. Prior to this move he worked in orthobiologic and orthopedic sales. Mike is a Certified Tissue Bank Specialist through the American Association of Tissue Banks. He has lived in Bozeman for the past three years with his wife and three children.
Zachary Meyers, M.D., has recently joined Bozeman Deaconess Family Medicine. A graduate of Oregon Health & Science University in Portland, he completed his internship and residency at Montana Family Medicine Residency in Billings where he was chief resident. In 2009, Dr. Meyers pursued a fellowship at University of Washington and joined Montana Family Medicine Residency as a faculty physician and director of simulation while also working at River Stone Health Clinic and teaching in Billings for University of Washington Department of Family Medicine and Pacific Northwest University of Health Sciences College of Osteopathic Medicine. He became vice chair of the Department of Family Medicine at St. Vincent’s Healthcare in 2011. Dr. Meyers is board certified in family medicine.

William J. Peters, M.D., FACOG is a physician with Billings Clinic Bozeman OB/Gyn. Dr. Peters earned his undergraduate degree from LaSalle College (Philadelphia) and then earned his medical degree from Jefferson Medical College (Philadelphia). He served an internship at Lehigh Valley Hospital Center in Allentown, Penn., before serving his residency at Thomas Jefferson University Hospital in Philadelphia. His special interests are chronic villus sampling/genetic amniocentesis and genetics. Dr. Peters has practiced in Bozeman for many years and joined the Billings Clinic in 2005.

Mike Spinelli, M.D. is Associate Program Director of WWAMI and practices at Spinelli Internal Medicine in Bozeman and as a general internal medicine physician at Bozeman Deaconess Hospital. He earned his bachelor’s degree in Biology from the Virginia Military Institute in 1998, served in the Peace Corps in Nepal, and then received his medical degree from Medical College of Virginia in 2006. Dr. Spinelli served an internal medicine residency at Georgetown University from 2006-09, and was the chief resident at Georgetown Internal Medicine in 2010. As the Associate Director for MT WWAMI and 3rd year Internal Medicine Clerkship Coordinator for the Bozeman Internal Medicine site, he also teaches medical informatics and clinical reasoning to the 1st year students in Bozeman. His interests include physician and medical student education, effective patient communication skills, quality and performance improvement. In his spare time, Dr. Spinelli enjoys skiing, hiking, backpacking and fly fishing.

Martin Teintze, Ph.D., is the Director of the WWAMI Medical Education Program at Montana State University, a position he has held since 2009. Dr. Teintze has been at Montana State University since 1992, first as an associate professor in the department of Chemistry and Biochemistry. He became the director of the Jutila Research Lab in 2007, a position he held until becoming the director of the WWAMI program. Before coming to Bozeman, he spent 13 years at the Cornell University Medical College. He has 30 peer-reviewed publications; for most of the past 20 years, research has focused on the structure of receptors involved in HIV infection and development of compounds that bind these receptors and block HIV entry. He has taught biochemistry to undergraduates, graduate students, and medical students. Dr. Teintze earned his B.S. in Chemistry from the California Institute of Technology and his Ph.D. in Biochemistry from the University of California, San Diego.
The Montana Medical Association gratefully acknowledges these supporters of the Physician Leadership Effectiveness Program.
